

## ***IP65-RFID mounting reader Mini***

The RFID reader MINI, with protection class IP65, is designed for integration in different applications where robustness is important.

For easy connection, many interfaces are available such as **USB, RS232, RS485, TTL, Wiegand** and **Clock/Data**.

The reader device supports all common RFID technologies in 13.56 MHz and 125 kHz range.

### **Supported Transponders:**

- LEGIC prime & advant
- ISO14443A+B, Mifare DESFire, Infineon SLE
- ISO15693 EM4035, Tag-It HFI, Infineon SRF
- Sony Felica
- NFC ISO18092
- Inside Secure
- HID iCLASS
- 125 KHZ

### **Highlights:**

- Best Price/Quality ratio
- Multifunctional application possibilities
- Protection class IP65
- Multi-Standard
- Also available as PCB without housing

### **Technical Data:**

- Dimensions: 135 x 49 x 20 mm
- Connection: Cable 2 Meter or customer-specific
- Integrated buzzer and 2 LED's for status indication
- Power supply: 9V....24V DC and 5V DC over USB
- Interfaces: Standard USB 2.0, RS232, RS485, TTL, Wiegand and Clock/Data
- Temperature range: -20°C to + 60°C
- CE, RoHS
